

Specialty Services

At Ippolito, we understand how complex and volatile the produce industry can be. Ippolito provides a wide array of specialized services to help execute programs efficiently and profitably.

- Consolidation/ Cross dock – our SQF certified, climate-controlled facilities are located minutes away from the 403 and QEW in Burlington, Ontario, we are 45 minutes from Downtown Toronto and less than an hour from the Niagara Falls Border.
- Repacks –Our operations team can repack, resize or re-label items compliant with regulatory standards.
- Reclamation/Regrading – Time is a valuable commodity and labour can be expensive. Our quality assurance team can sort through a rejected or protested load, reworking cases and pallets into product suited to your specifications. Our sales team can help to find a home for the remaining product.
- Bagging – We can receive totes or bins of product and repackage into vexar mesh or other suitable bags of any size. Typically used for citrus, we can also bag, apples, pears, stone fruits, or avocados.
- Icing – Our icing room can ice pallets of broccoli, Brussels sprouts, green onions, or any other item that needs to maintain cold chain integrity.
- Ripening – At Ippolito Fruit & Produce we have temperature and pressure controlled ripening rooms. Our experts will ensure product has the correct amount of shelf life and ripeness before shipping to you.
- Merchandizing – our team can help set best in class merchandizing displays.
- Storage – Ippolito Fruit and Produce has SQF certified facilities in Burlington, Ontario which can act as cold storage to suit your needs.
- Grower Services and marketing – Ippolito Fruit & Produce has been working with growers and farmers for decades, our sister company Ippolito International manages over 30,000 acres of growing lands in the US. Allow us to offer our experiences to aide in your agricultural business. Our sales team can also help to find a suitable buyer for your product.
